GUN SAFETY RULES

Observe these rules of safe gun handling.

- 1. Always keep the muzzlepointed in a safe direction. Watch the muzzle at all times: never point a gun, accidentally or intentionally, at any person or anything you do not intend to shoot. Identify the target before shooting; do not shoot at sounds.
- 2. Always treat any gun as if it is loaded it may be!
- **3.** Keep your finger off the trigger while operating the action and at all other times until you are ready to shoot.
- **4.** Keep the safety "on" or in the "safe" position at all times until you are ready to fire the gun. Move to shoot. Up to the previous line after the word intend. to shoot. Do not rely on your gun's safety, the safety on any gun is a mechanical device and is not intended as a substitute for common sence or safe gun handling.
- **5.** Learn how your gun functions and handles . If you do not thoroughly understand the proper use and care of your gun, seek the advice of someone who is knowledgeable.
- **6.** Do not alter or modify and parts of a firearm.
- **7.** Store guns unloaded, separate from any ammunition, and where children cannot get to them.
- **8.** Be sure the barrel is clear of any obstructions before loading. Make it a habit to check the barrel every time before loading.
- **9.** Be sure you have and use the proper ammunition. 20 gauge shell will enter a 12 gauge chamber far enough so that a 12 gauge shell can be loaded behind it. Also, a 3 inch shell may fit into a 2 3/4 inch chamber, but the crimp at the mouth of the shell will unfold into the forcing cone. If either of these things occur and you fire the gun, the gun will explode, damaging the gun and possibly causing serious injury or death to you and those around you
- **10.** Wear protective shooting glasses and adequate ear protection when shooting.
- **11.** Never climb or jump over anything, such as a tree, fence, or ditch, with a loaded gun. Open the barrel, remove the shells, and hand the gun to a friend

or place it on the ground on the other side of the obstacle before crossing it yourself. Do not lean a gun against a tree or other object; it could fall and possibly discharge.

- **12.** Do not shoot at a hard surface or at water Bullet and shot can ricochet or bounce off and travel in unpredictable directions with great velocity.
- **13.** Never trans port a loaded gun. Do not place a loaded gun into a vehicle. The gun shold be unloaded and placed into a case when not in use.
- 14. Never drink alcoholic beverages before or during shooting.

INTRODUCTION TO KIRICI ARMS

For many years, **KIRICI ARMS** has been importing quality shotguns. Combine the old world quality with modern technology, and you have **KIRICI SHOTGUNS**.

We at **KIRICI ARMS** thank you for the privilege of delivering a product to you that will provide you with years of pleasurable use. Happy shotgunning.

ABOUT YOUR PUMPACTION SHOTGUN

Your **KIRICI** is manually operated. Once a shell has been fired, the locking lug in the bolt moves down, unlocking the gun. The forearm can then be moved to the rear and forward again, ejecting and loading a new shell.

To open the bolt without firing the gun, depress the action bar lock, located just beside and forward of the trigger. This allows for opening the action without dry firing.

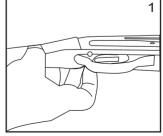

SAFETY SWITCH OR BUTTON

The safety is designed to stop the trigger mechanism.

DON'T RELY ON YOUR GUN'S SAFETY, TREAT EVERY GUN AS IF IT WERE

LOADED AND READY TO FIRE. The safety on any gun is a mechanical device, and it is not intended as a substitute for common sense or safe gun handling. Always keep the muzzle pointed in a safe direction.

A- The safety is located behind the trigger, and provides protection against accidental or unintentional discharge under normal usage when properly used.

- **B-** To engage the safety, push the button so that it protrudes from the right side of the gun and the **RED BAND MARKING CAN NOT BE SEEN.** The safety should always be in the "on" or "safe" position until you intend to fire the gun. **(Photo 1)**
- **C-** When you are ready to fire the gun, press the safety button to the "off" position so that the safety protrudes from the left side of the gun and the **RED BAND MARKING IS SHOWING.**

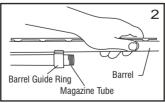

DANGER: The gun will fire when the trigger is pulled intentionally or accidentally when the **RED BAND MARKING IS SHOWING.**

ASSEMBLY

- 1. Remover the magazine cap.
- 2. Press upward on the action bar lock. Pull the forearm approximately halfway rearward.
- 3. Hold the barrel ahead of the barrel guide ring (See picture 2).
- **4.** Slide the barrel guide ring over the magazine tube. Clean the barrel following the instructions on Page 12.
- **5.** Press upward on the action bar lock.
- **6.** Align the ejector on the inside of the barrel with the slot in the bolt.
- 7. Carefully set the barrel into the receiver. DO NOT FORCE IT!
- 8. Replace the magazine cap. Tighten.

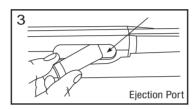

DISASSEMBLY

- 1. Make sure the gun is unloaded!
- 2. Point firearm in a safe direction
- **3.** Point firearm in a safe position.
- 4. Push up on the action bar lock.
- 5. Slide forearm forward halfway.
- **6.** Unscrew and remove the magazine cap. Barrel Guide Ring 7. Pull the barrel carefully out of the receiver. Magazine Tube 8. Push the carrier forward.
- 9. Depress and hold the action bar lock.
- **10.** Slide the forearm forward and off the magazine tube.

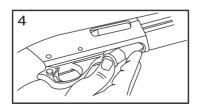

LOADING YOUR SHOTGUN ONE SHELL ONLY

- 1. Put safety in the "on" position.
- 2. Point the gun in a safe direction.
- 3. Push up on the action bar lock.
- 4. Pull the forearm completely to the rear.
- **5.** Put one shell through the ejection port, making sure it is the correct gauge and length. **(See picture 3)**
- **6.** Push the forearm forward and close the action.

FULLY LOADING YOUR SHOTGUN

- 1. Put safety in the "on" position.
- 2. Point the gun in a safe direction.
- 3. Push up on the action bar lock.
- 4. Pull the forearm completely to the rear.
- **5.** Put one shell through the ejection port, making sure it is the correct gauge and length. **(See picture 3)**
- 6. Push the forearm forward and close the action.
- 7. Push a shell upward against the bottom of the carrier. (See picture 4)
- 8. Push two (2) to four (4) shell, one at a time, fully forward into the magazine tube

Ship the firearm prepaid to:

INSTALLATION OF MAGAZINE PLUG

Some Federal, State and local hunting regulation may require that a shotgun be limited to a maximum shell capacity of three (3) rounds

Your shotgun has been packed with a magazine plug for this purpose.

Installation:

- 1. Remove the forend screw cap, the forend and the barrel.
- 2. At the threaded end of the magazine tube (where the forend screw cap fits) you will locate a black snap ring.
- 3. A large blade screw driver should be used to remove the snap ring.

CAUTION: The snap ring will be under pressure from the magazine spring. Do not remove the snap ring in a manner where the ring could fly out and strike you or an yone else causing injury, particularly to the eye.

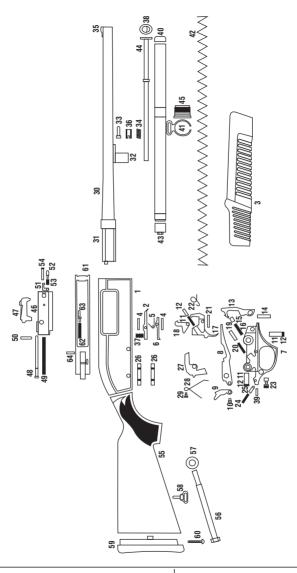

4. Compress the magazine spring into the magazine tube, and insert the magazine plug (small end first). Push the magazine plug and insert the snap ring so the snap ring end is flush with the end of the tube.

THANK YOU

Thank you for purchasing a **KIRICI SHOTGUN**. We are sure this gun will bring you years of hunting and/or shooting pleasure. Your satisfaction is the key to our success. Please let us know if we can be of service and please relay any observations about your guns performance or appearance.

USAGE OF CHOKE TUBES

The choke is what controls the openness or tightness of the pattern of your shotgun The chart below lists the choke available (from open to tight), and the corresponding marks that indicate the choke of your specific shotgun.

	SKEET	IC	М	I M	F	ХF
CHOKE TUBE						
BBL	G C L	****	***	**	*	ΧF

Never fire or run oun cleaning tools through a barrel that uses choke tubes without having a choke tube installed. The threads of the choke tube and the internal threads of the barrel should be cleaned after each use and before installation of the tube

To install a tube, insert the tube into the barrel and tighten with your fingers. Once the tube is finger tightened, tighten with the appropriate choke-tube wrench until the tube is snug. DO NOT over tighten or forcefully tighten with wrench.

MAINTENANCE AND CLEANING

Caution: Make sure the gun is unloaded.

- 1. Make sure that the broad, polished, finely fitted mating surfaces of the breech block and receiver are especially clean and lightly oiled with a high quality oun oil. Do not use pure silicone or lanolin.
- 2. Run an oil patch through the bore with a cleaning rod starting from the breech end To prevent leading, use a cleaning solvent and brass brush to clean the bore periodically. Follow this cleaning with one or two clean oilpatches. Important: If your gun is equipped with choke tubes, do not use a brass brush to clean the barrels unless a choke tube is installed in each barrel. Barrels that utilize choke tubes must also have the choke tubes removed to clean and oil the threads inside the barrel and the choke tubes themselves. This will protect the threads from being damaged by cleaning tools and also prevent a dirt build up that would cause the choke rube to become difficult to remove from the barrel. Damage can result to choke tubes and barrel when attempting to remove sticky choke rubes. Never fire your gun without choke tubes snuggly tightened in barrels. Do not over tighten choke tubes. Wipe all exposed metal surfaces with an oiled cloth before storing. Do not squirt or pour oil into the inside mechanism because it may hamper proper functioning and will soak the wood. After extended periods of heavy use, your gun sholud be taken to a qualified gunsrrith to have the action disassembled for professional clean ing and lubrication.
- 3. Care for your wood stock and forearem the same way you would a piece of furniture with the same finish.

SERVICE AGREEMENT AND LIMITED WARRANTY

KIRICI ARMS agrees to service its products free of charge for defects in materials and workmanship in accordance with the service agreement listed below. The obligation of KIRICI ARMS under this agreement is limited to the repair or replacement of unserviceable parts and does not cover any incidental or consequential damages. Other than the express warranty contained herein KIRICI ARMS makes no warranties, express or implied. **KIRICI ARMS** will repair or replace any unserviceable part(s) for two (2) years from date of purchase and further will supply free parts (Wood not included) for an additional four (4) years in accordance with the above warranty statement provided your firearm had not been altered, abused, willfully damaged, or damaged by overpressure ammunition. This agreement is not transferable; its benefits apply only to the original purchaser. To obtain free service during the time this agreement is in effect. make sure your firearm is unloaded, and send it to KIRICI ARMS. This agreement and the warranties contained herein are void if your registration card is not received with a copy of your sales slip within 30 days from date of purchase.

SHIPPING

When returning your gun for service, please take care in packing. Disassemble your gun, wrap in paper or other protective media and place gun in the original box. (THIS BOX WILL PROTECT THE GUN BUT IS NOT DESIGNED FOR SHIPPING). Warp box in a cardboard box approved for interstate shipping. KIRICI ARMS is not responsible for damage incurred during shipping.
